# Overview of Interim Financial Results for FY2022

— IR Presentation —

# December 2022

Hirogin Holdings, Inc.

未来を、ひろげる。

#### Financial results

- Net income attributable to owners of the parent fell 1.1 billion yen year on year to 10 billion yen, due mainly to impairment losses on stock holdings. Nevertheless, our main businesses recorded favorable business performance.
- Due to various factors, including positive performance among our main businesses, we project net income in FY2022 in line with our initial projection of 25 billion yen.

### IT strategy, DX strategy

- We currently plan to move to MEJAR, a nextgeneration backbone system, by FY2030 and to adopt a cloud platform. The system will be used jointly by five regional banks across Japan.
- Studies are also underway on cooperation in areas other than the backbone system with MEJAR member banks, to deploy cooperative measures leveraging the strengths of each bank.
- ▶ In addition to redefining our digital transformation (DX) strategy, we will enhance the related systems and achieve accreditation as a DX business operator from the Ministry of Economy, Trade and Industry.

### **Sustainability**

- Groupwide efforts are generating results as we make steady progress based on the strategies of the Mid-Term Plan 2020.
- We are enhancing Group carbon neutrality initiatives and strengthening community and customer support by considering the impact of our business activities on our service areas.
- In addition, we are moving ahead with strategies in diversity, inclusivity, and other areas. These are among the measures and design systems intended to enhance our human capital.

### **Capital policies**

- ► Targeting a consolidated capital adequacy ratio of 11% for the Holding Company, we are enhancing capital allocations for investment securities to restructure the securities portfolio. This is in addition to taking risks on local credit.
- In light of our capital adequacy ratio, we will also reassess returns to shareholders and seek to increase dividend payout ratios based on increased profits.
- ► We plan to pay dividends of 27 yen per share in FY2022 even if net income attributable to owners of the parent falls below 24 billion yen.

Summary of Business performance

Toward sustained growth

O3 Appendix

#### Overview of FY2022 1H financial results

Interim net income attributable to owners of the parent fell 1.1 billion yen year on year to 10 billion yen, due mainly to impairment losses attributable to the lower price of certain stock holdings. This was despite positive performance among our main businesses.

#### Summary of consolidated business performance

(Billion yen)

(Dillott yel						
	FY20	)22 1H	YoY change	(Change rate)	vs. Announced	
Consolidated gross profit		48.5	0.8	(1.6%)		
(excluding gain/loss related to treasurie and other bonds)	<b>1</b>	50.5	2.1			
Net interest income		34.7	0.9			
Net fees and commissions income		9.9	- 0.6			
Income from specific transactions and other businesses		3.8	0.4			
(including gain/loss related to treasuries and other bonds)	2	- 1.9	- 1.3			
Operating expenses (-		29.2	- 0.4			
Credit costs (-	3	0.5	- 4.5			
Gains/losses related to equities, etc.	4	- 4.1	- 7.5			
Other		0.1	- 0.1			
Ordinary profit		14.7	- 2.0	(-11.6%)	-3.8	
Extraordinary gains/losses		- 0.1	0.5			
Total income tax, etc. (-		4.4	- 0.4			
Interim net income attributable to non-controlling interests (-		0	0			
Interim net income attributable to owners of the Parent	5	10.0	-1.1	(-9.5%)	-2.5	
(Ref.) Operating overhead ratio		58.0%	-3.3%			

<sup>\*</sup> Operating overhead ratio = operating expenses / (consolidated gross profit-gain/loss from treasuries and other bonds)

#### **Key points of FY2022 1H financial results**

# Consolidated gross profit (excluding gain/loss related to treasuries and other bonds)

 Our main businesses recorded favorable business performance, including significant revenue growth from corporate solutions (up 2.1 billion yen), a particular focus of the Hiroshima Bank's consulting businesses identified as a priority in our management targets.

#### 2 Gain/loss from treasuries and other bonds

 With accelerating US interest rate increases, we recorded loss on sales associated with trades intended to restructure our portfolio of foreign bonds to improve yields. This included the sale of low-yield US treasuries.

#### 3 Credit costs

At 500 million yen, credit costs remained low. No major bankruptcies have
occurred recently; additionally, in the last fiscal year, we revised how we calculate
allowances for doubtful accounts, adopting a Group allowance with a longer
calculation period for the projected loss rate. We also recorded recording a
precautionary allowance of 11.6 billion yen in various ways, including
accumulating allowances for certain customers.

### 4 Gains/losses related to equities, etc.

 We recorded 5 billion yen in impairment losses attributable to the lower price of stock holdings (impact on income after tax: -3.4 billion yen)

Reference: Standard for impairment of listed shares

This is recorded if the stock price falls markedly from the acquisition price as of the end of the period.

\* Based on stock prices at the end of March, we will make a final decision on whether to record an impairment loss in year-end financial results.

### 5 Interim net income attributable to owners of the parent

We recorded interim net income of 10 billion yen despite a 1.1 billion yen year on year decline due to impairment losses on stock holdings.

# Results for major Group companies - Bank -

(Billion yen)

#### Bank

	FY2022 1H	YoY change	(Change rate)
Business gross profit	44.2	1.6	(3.7%)
(including core business gross profit)	46.2	2.9	(6.7%)
Net interest income	35.9	0.9	
Net fees and commissions income	6.9	- 0.3	
Income from specific transactions	0.8	0.5	
Income from other operations	0.5	0.5	
(including gain/loss related to treasuries and other bonds)	-1.9	- 1.3	
Expenses (excluding extraordinary disposal) (-)	26.3	- 1.0	
Effective business gains/losses	17.9	2.7	(17.2%)
(Net income from core businesses)	19.8	3.9	(24.7%)
(Net income from core businesses (excluding gains/losses from cancellation of investment trusts))	19.8	3.9	(24.7%)
Credit costs (-)	0.4	- 4.5	
Gains/losses related to equities, etc.	-4.1	- 7.4	
Other temporary gains/losses	0.7	- 0.5	
Ordinary profit	14.0	- 0.9	(-5.9%)
Extraordinary gains/losses	-0.1	0.5	
Total income tax, etc. (-)	3.7	- 0.1	
Interim net income	10.1	- 0.3	(-3.5%)

Interim net income was down 300 million yen year on year to 10.1 billion yen, due mainly to impairment losses on stock holdings. This was despite positive performance among our main businesses and an increase of 3.9 billion yen in the Hiroshima Bank's core business gross profit.

#### Revaluation gain/loss on securities

		End of March 2021	End of March 2022	End of September 2022	vs. end of March 2022
TE	Bonds	0.1	- 11.2	- 20.4	- 9.2
	Treasuries	- 1.8	- 8.4	- 14.8	- 6.4
	Municipal bonds	0.5	- 1.7	- 3.2	- 1.5
	Corporate bonds	1.4	- 1.0	- 2.4	- 1.4
	quities	43.1	31.6	33.1	1.5
	Others	- 4.6	- 18.9	- 63.1	- 44.2
	Foreign bonds	- 5.8	- 16.0	- 52.8	- 36.8
	Investment trusts	1.4	- 2.9	- 10.3	- 7.4
To	otal	38.6	1.5	- 50.4	- 51.9

#### (Results)

Revaluation gain/loss on foreign bonds worsened due to rapidly rising US interest rates. This was despite efforts to shorten duration and improve yields in various ways, including the sale of low-yield bonds and purchasing bonds as rates rise.

	End of March	End of
	2022	September 2022
Yield	Approx. <b>1.7</b> % —	→ Approx. <b>2.2</b> %
Duration	Approx. <b>5.6</b> years	Approx. 5.2 years

 In FY2022 1H, despite negative spreads on certain foreign bond investments, we recorded positive gains on foreign currency funds of 4.7 billion yen.

#### (Future policy)

- To ensure preparedness for the risk of rising interest rates, we will refrain from building up balances of foreign bonds. At the same time, we will sell and reduce the balance of low-yield bonds.
- In addition, we will adopt a policy of keeping down the cost of raising funds in foreign currency in various ways, including by revising fundraising periods to reflect interest rate trends.

### Total profits from the consulting business for corporate and individual customers and net income for Group companies

➤ Total profits from the consulting business for corporate and individual customers and from net income for Group companies rose by 500 million yen year on year to 7.4 billion yen. This figure is projected to reach 14.8 billion yen for FY2022 as a whole, due mainly to growth in corporate solutions revenue at the Bank.

Summary of Business performance

Toward sustained growth

03 Appendix

## **Group vision**

Deploying the Group business model to realize the management philosophy (i.e., long-term vision)

#### Goal

#### Management **Philosophy** (Management Vision)

Contributing to the creation of a prosperous future for the regional community, as a trusted Regional **Comprehensive Services Group by** closely offering thorough support to customers

**Basic policy** 

While deepening and expanding the operation axis and customer axis in the markets of our four local prefectures (Okayama, Yamaguchi, Ehime, and Hiroshima), which have potentials in terms of economic scale and growth opportunities, Hirogin Holdings will thoroughly work on solving every issue faced by the regional community and customers and actively commit itself to the development of the region, thereby realizing its management philosophy and achieving the group's sustainable growth.

#### **Business model**

Achieve sustainable growth for the Group

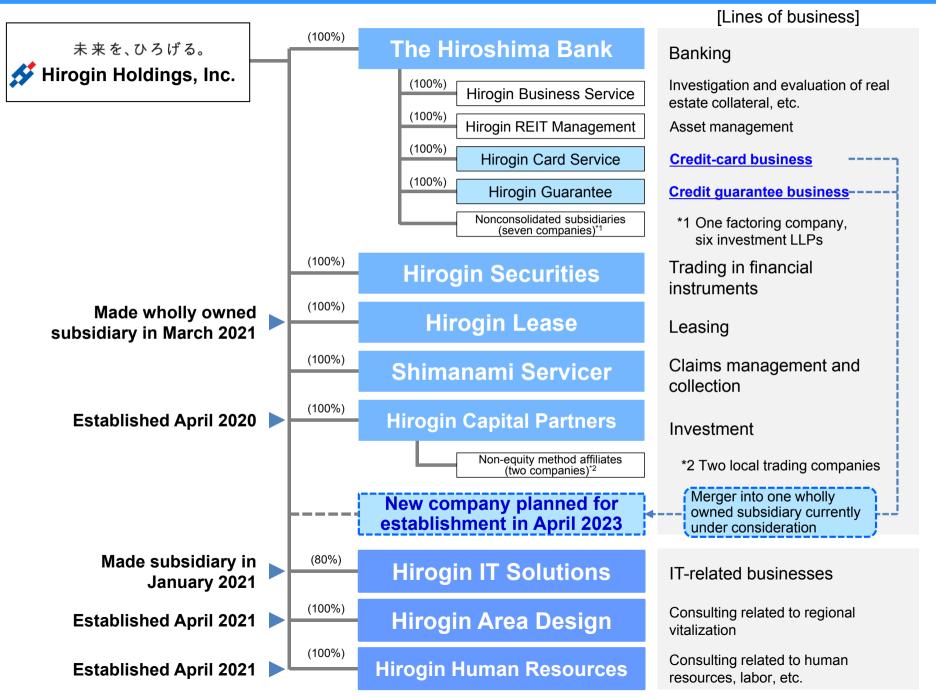

Contribute to regional development and to the growth of customers

Provide various solutions to solve customers' issues

Further expanding the operation axis through the transformation to a holding company structure

# **Group vision**

\* As of October 1, 2022

**Financial** consolidated subsidiaries: 9 companies

**Nonfinancial** consolidated subsidiaries: 3 companies

## **Group vision**

- Cooperation between the Bank and nonbanking subsidiaries has begun to generate results through progress on strengthening Group cooperation. This approach includes the migration to a holding company structure.
- Looking ahead, we plan to solidify the holding company structure by enhancing cooperation among non-Bank subsidiaries, improving the quality of Group companies, and expanding our scope of operations.

### Improving the quality of Group companies expanding our scope of operations

Solutions to solve regional

- **Enhancing the quality of solutions** offered by Group companies
- Advancing into new businesses and offering a wider range of solutions
- **Expanding our scope of operations through** enhancing alliances with other companies

## Strengthening relationships

- Further enhancing communication with customers for whom we are the primary bank and with other existing customers amid intensifying competition
- Strengthening relationships both with customers who have participated in few transactions to date and new customers

## **Further enhancing Group cooperation**

- Building structures for offering solutions above and beyond those available from competitors, based on Group success with Group cooperation
- Dramatically improving our ability to offer solutions through cooperation across the entire Group (i.e., building a structure capable of delivering one-stop solutions to meet customer needs)

Enhancing cooperation taking place without going through the Bank, instead of relying on cooperation between the Bank and other operating companies alone

### **Measures to support the vitalization** of the local economy

- New industry creation (support for startups and venture capital)
- Business succession and M&A support
- Community redevelopment
- Attracting businesses

Strengthening the structure of Hirogin Area Design (enhancing human resources)

### Toward sustained growth and increases in corporate value by achieving the targets of Mid-Term Plan 2020

Under Mid-Term Plan 2020, the first mid-term plan following our migration to a holding company structure, we are enhancing strategies and measures founded on three main pillars to realize our business model.

## Toward sustained growth and increased corporate value

**Enhanced initiatives** involving creating solutions for community issues

Community development, tourism promotion. etc.

- Attracting a Hilton Hotel
- Operating Citrus Park Setoda
- Participating in consortium to develop the area around Kure Station

**Enhanced initiatives** to support customer growth

**Enhancing** management **foundations** 

Channel and structural reforms, etc.

# I. Carbon neutrality initiatives (i) Supporting community and customer carbon neutrality

- The four local prefectures, including Hiroshima Prefecture, are manufacturing centers. As such, the impact of climate change and the transition to a carbon-zero society may well prove stronger here than in other areas of Japan. Active support for decarbonization in the community is vital.
- Since establishing a carbon neutrality promotion structure in November 2021, the Group has made progress on enhancing the related initiatives and disclosure. We plan to leverage our expertise in this area to support the efforts of the community and our customers.

### Status of our initiatives to promote carbon neutrality

environmental and social issues such as human rights violations and impact on biodiversity)

Planning

# I. Carbon neutrality initiatives (i) Supporting community and customer carbon neutrality

We are enhancing our lineup of products and services to meet the needs and the state of various initiatives, with the goal of strengthening and promoting efforts to achieve carbon neutrality among customer companies.

## Support for carbon neutrality among our customers

### **SDGs initiative support service**

Bank

- Checking on the state of SDGs initiatives, identifying items that need to be addressed, and providing feedback sheets
- Support for formulating SDGs Statements and public promotion of these services
- Commission: 110,000 yen/case

#### Sustainability management adoption support services

**Bank** 

- Supporting identification of materiality as main axes for corporate sustainability management through repeated dialogue with management
- Supporting the formation of Sustainability Management Policies
- Commission: 1,100,000 yen/case

### Sustainability-related financial services

HL x HAD x Bank

Supporting sustainability initiatives in the areas of funding and forex risk hedging

## Carbon neutrality support consulting

**Alliance** 

Integrated support for enhancing carbon neutrality initiatives from assessment of current conditions through implementation

Example: Assessing company and supply chain greenhouse gas emissions and proposing solutions to reduce them

## **Results and future prospects**

\* Results as of the end of September 2022

#### 87/830 million ven

Consulting orders received:

22

\*Since December 2021

We will continue to link support for community and customer sustainability to revenue by actively promoting decarbonization within the community.

# I. Carbon neutrality initiatives (ii) The Group's carbon neutrality initiatives

To eliminate Scope 1 and Scope 2 greenhouse gas emissions by FY2030, we plan to cut emissions by about 20% annually, based on progress in areas such as use of renewable energy and investments to reduce use of electricity at branches and other facilities.

Adoption of electricity from renewable energy at the head office building

Solutions to issues with

Since **November** 2022

#### Adoption of special renewable energy contract offered by **Chuqoku Electric Power**

> We adopted this contract because it offers electricity generated with zero associated CO2 emissions based on electricity and environmental value from renewable energy facilities (hydroelectric, solar, and biomass) in the Chugoku region.

CO2 emissions reductions: approx. 2,400 tons/fiscal year (equivalent to about 20% of Scope 1 and Scope 2 emissions)

We are considering adopting this plan at other head office facilities and branches to reduce emissions by about 20% annually.

### **Building new** sustainable buildings

Relocation of the Hiroshima Bank Tokaichi Branch and Hirogin Securities Miyoshi Branch

Planned for **December** 2023

Illustration of new office building and branch]

We plan to build sustainable office buildings that will help to reduce greenhouse gas emissions by securing Net Zero Energy Building (ZEB) accreditation and using lumber from Hiroshima Prefecture.

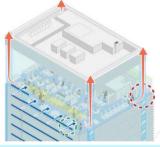

- We plan to become the first financial institution in our four local prefectures (Hiroshima, Okayama, Yamaguchi, and Ehime) to earn ZEB accreditation.
- We plan to become Japan's first financial institution to build office buildings combining ZEB accreditation with wooden structures.

A head office building characterized by strong environmental performance Completed in March 2021

#### Heat

#### Wind tower (eco void, gravity ventilation)

Improves natural ventilation performance through air circulation via gravity ventilation routes at all four corners.

#### Water

#### Use of rainwater

Rainwater is collected underground in the parking structure and reused as nondrinking water.

#### Reducing heat island effects

#### Terrace greening

Greening of lower levels and a terrace on the second floor

#### Mistina

Dry misting deployed from the entrance pilotis

#### Reference

The new head office building won the Chugoku Bureau of Economy, Trade and Industry Director's Prize in the Chugoku New Office Promotion Awards program, which recognizes the following office concept efforts:

- Demonstrating the results of
- synergistic effect of Group cooperation
- Improving productivity and efficiency
- Promoting community revitalization and CSR
- Provision of state of the art financial services
- **Enhancing business continuity** planning

# II. Regional vitalization and local revitalization - Regional industrial development -

In addition to providing platforms that contribute to open innovation in the community in various ways, including support for commercialization of new ideas and research seeds, the Group will play a central role in energetic efforts to stimulate the local economy through regional industrial development, including the establishment of a new co-working space to support startups.

Hiromalab co-working space

**Opened** December 2022

#### **Places**

Setting up satellite offices. rental meeting rooms, etc.

### **Systems**

Realizing innovation and cocreation through HR exchange and events

## **Hiroshima Open Accelerator**

#### Local businesses

Provision of customer bases, funding, and other business resources

New business creation

### **Startups**

Provision of alliance ideas and special services

New business development through open innovation linking the management resources of Hiroshima **Prefecture firms to startups from across Japan** 

#### **Hiroshima Tech Planter**

p.21

**Nonfinancial** 

 Enhancing efforts targeting the IT consulting business

p.23

Providing HR and labor solutions

#### Small corporate, small business

Large, upper-

middle-sized.

lower mid-tier

(Net sales of 200 million yen or more)

(Net sales of less than 200 million yen)

## Building a platform for accurately identifying customer needs

Balancing attentive response to funding and consulting needs and low-cost operations via the Web and other technologies

Shifting from real-world to digital channels

**Business Consulting** Center

Business portal site, fully Web-based lending **Expanding centralized management of** credit customers and enhancing response to consulting needs (planned facility expansion to Fukuyama)

Completing a fully online lending platform to enable all procedures from application through conclusion of contracts, in addition to transaction inquiries, to be completed on the Web

# I. Corporate strategy (ii) Equity business, M&A, business succession

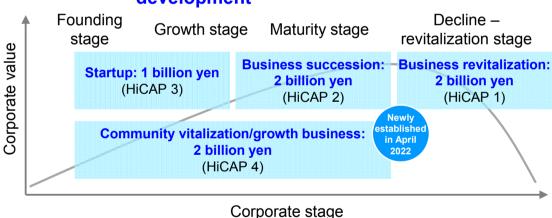

- Responding to deregulation under the Banking Act by building a structure capable of providing equity funding to businesses at every stage of development
- Establishing this approach as a revenue-generating constant by harnessing the Group's strength of high specialization

### Enhancing initiatives targeting equity and business succession needs

Solutions to solve regional

#### HiCAP x Bank

Responding to deregulation under the Banking Act by building a structure capable of providing equity funding to businesses at every stage of development

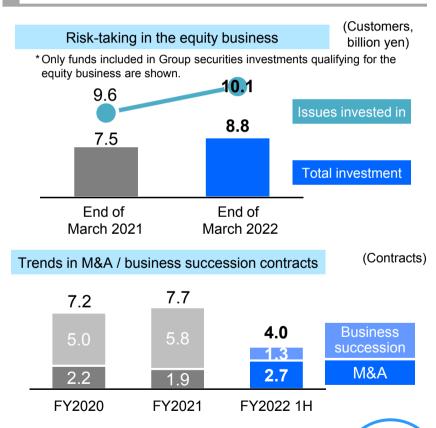

## Bank

**Deploying business succession and M&A businesses** reflecting our high degree of specialization

- Building relations based on business evaluation
- Accumulated expertise in services related to business succession

### Results and future outlook

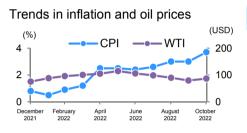

We will continue to establish this as a revenue-generating field while actively taking on risk.

#### I. Corporate strategy (iii) Responding to rapid environmental changes

We will build stock-based revenue models less susceptible to environmental factors by providing suitable solutions to respond to rapid environmental changes, including ven devaluation and skyrocketing raw material costs, as well as post-COVID-19 customer needs.

## Responding to needs reflecting rapid environmental changes

#### Results of survey of managers (excerpts)

Q. What are some current management

No. 1 answer: Rising raw material costs

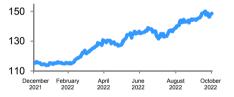

What are some causes for concern to management?

No. 1 answer: Fluctuations in crude oil and raw material costs

No. 2 answer: Rapid ven devaluation

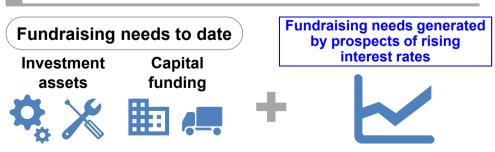

Note: This survey of managers conducted by our magazine for customers in October 2022 targeted our member companies in Hiroshima Prefecture (n = 640).

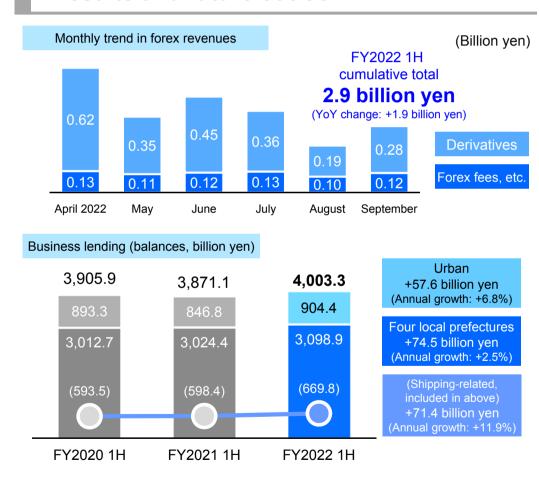

Providing timely solutions to the growing need for ways to hedge against foreign exchange risks, centered on importers

# Responding to post-COVID-19 needs

Responding energetically to fundraising needs generated by prospects of rising interest rates, in addition to fundraising for business stabilization and growth and for capital investments

### Results and future outlook

We're committed to expanding our menu of solutions to build a business model capable of responding to customer needs in a changing environment.

**Toward sustained growth** 

Support for customers Management foundations

# I. Corporate strategy (iv) Offering nonfinancial solutions

Our corporate customers have strong needs in nonfinancial areas, including human resources and organizational vitalization. Our nonfinancial subsidiaries offer a wide range of solutions.

#### Nonfinancial solutions reflecting the needs of SMEs Note: This survey of managers conducted by our magazine for Results of survey of managers (excerpts) customers in October 2022 targeted our member companies in Hiroshima Prefecture (n = 645). (Management issues) (i) Rising raw material 60.2% costs (ii) Securing human 47.8% resources/labor shortages (iii) Decreasing sales/orders 33.0% (iv) Improving employee 25.3% skills/enhancing HR development (v) Difficulties involved in 17.8% **Management faces issues** increasing selling prices related to human resources, organizational vitalization, (x) Improving and other factors. 7.8% productivity HR and labor solutions HHR HITS IT/DX solutions Human Labor and **Business** resource **Productivity** personnel efficiency placement/ improvements systems improvements dispatch **Benefits** Training Security improvements

Solutions to solve regional

Support for customers Management foundations

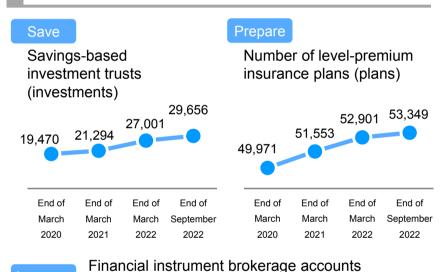

# II. Strategy for individual customers (i) Goal-based approach

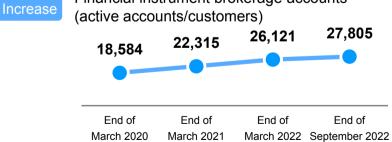

- We will provide solutions through cooperation between the Bank and Hirogin Securities by sharing from life planning through goals (i.e., dreams and targets) utilizing our life design services and by taking a goal-based approach involving ongoing review of steps.
- In the future, alongside reviewing various joint efforts involving the Bank and Hirogin Securities, we will conduct our business by attaching higher value to customers and change our structure to transform to stock-based revenues based on a goal-based approach.

# Offering solutions through a goal-based approach

### Results and future outlook

Amid an accelerating movement toward asset building, we will transform to stock-based revenues based on a goal-based approach (studying adoption of mutual fund wraps) while reviewing cooperation between the Bank and Hirogin Securities.

# II. Strategy for individual customers (ii) Deploying inheritance businesses

- The need for inheritance services is growing as populations within the four local prefectures continue to age, with percentages of seniors above the national average.
- Drawing on our accumulated expertise and a full range of inheritance-related services, we plan to focus on offering optimal solutions, ranging from inheritance preparation through support for post-inheritance requirements, to serve as continual drivers of revenue growth.

### Responding to inheritance needs

Percentage of population aged 65 or older in four local prefectures

Approx. 31%

Source: 2020 national census

The percentage of seniors exceeds the national average of 28%.

Strong inheritance needs

#### Pre-inheritance

## **Testamentary trust** (ひろぎん) 遺言信託 遺産相続や事業系融を円備に進めていただけるよう

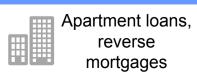

#### **Testamentary substitute trust**

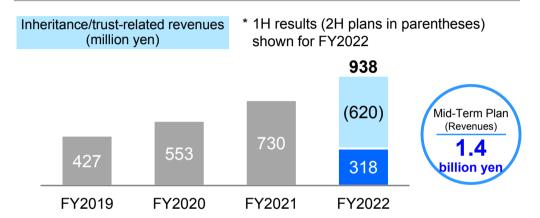

#### Post-inheritance

#### Effective use of real estate

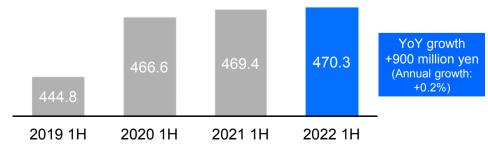

#### Results and future outlook

#### Apartment loans (billion yen)

 Apartment loans are currently offered only to landowners who need inheritance services and want to make more effective use of their real estate.

Focusing on the market for services that serve seniors as a revenue growth driver

# I. IT strategy (i) Migration to the MEJAR system

We plan to participate in the MEJAR system, a next-generation backbone system to be used jointly by five banks (the Bank of Yokohama, Hokuriku Bank, Hokkaido Bank, 77 Bank, and Higashi-Nippon Bank), to realize an advanced cloud-based system.

### Roadmap

Note: See the next page for an overview of MEJAR.

Vision

FY2022

FY2030

1. Participating in nextgeneration backbone system

> Alliance Promotion Office established

Through migration (Flight 21)

#### Preparations for migration

- Preparations for migration to MEJAR
- Participation in next-generation planning based on cloud computing

Migration to the MEJAR system

Realizing a cloud-based backbone system

Alliance with MEJAR member banks

- \* See next page for more information.
- Management cooperation (Under consideration: Developing financial services in digital, sustainability, and other areas)
- Partnerships in the IT field in areas beyond the backbone system (under consideration: cybersecurity)

Joint system operation with Fukuoka **Financial Group** 

FY2026

#### Modernization\*

Benefiting from modernization

- · Improving reliability, productivity, and efficiency
- Simplifying the migration to the next-generation backbone system, HR development

Maintaining our alliance with the Fukuoka Financial Group

\* Switching to a modern system by incorporating new technical elements while continuing to utilize existing assets

Transforming to a business model that makes more effective use of digital technologies

Switching to an innovative new backbone system on a cloud-based platform

- Dynamic provision of more advanced financial services
- Reduced IT investment costs
- Core business growth based on promoting DX strategies

Improving the top line by establishing wide-ranging alliances

#### (ii) Overview of partnerships in areas beyond the backbone system I. IT strategy

Partnerships with MEJAR banks in areas beyond the backbone system is also under consideration. We will seek partnership arrangements that leverage the strengths of each bank.

# Overview of partnerships in areas beyond the backbone system

- Development of financial services in digital fields through participation in the MEJAR Digital Innovation Hub
- Promoting mutual assistance in cybersecurity (sharing management processes, training, education, and costs)

- Supporting customer sustainability management through participation in **MEJAR Sustainability Solutions** partnerships
- Enhancing partnerships in corporate fields such as M&A support

We will demonstrate practical results from partnerships while considering other joint efforts in various areas.

#### Reference: MEJAR overview

**MEJAR** stands for most efficient joint advanced regional banking system.

**MEJAR** scheme A bank-led scheme for joint systems use based on NTT Data's BeSTA standard banking system led by the Bank of Yokohama, Hokuriku Bank, Hokkaido Bank, 77 Bank, and Higashi-Nippon Bank.

#### (MEJAR participant banks)

#### (i) Overview II. Digital strategy

To realize a management philosophy and business model based on our digital transformation (DX) strategy, we are defining areas of initiatives and infrastructure development items based on the basic policies of implementing DX in various businesses and measures and active initiatives and a changing awareness among all Group companies and personnel.

Applying DX in various businesses and measures

Active initiatives and a changing awareness among all Group companies and personnel

#### **Digital** innovation (New business creation)

### **Creating new businesses and operations** by utilizing digital technologies

- Creating new value added by establishing new business models and businesses utilizing digital technologies

#### **Digitalization** (Migration to digital on the offense)

#### Applying digital technologies to reform existing businesses and processes

- Renewing the organizational business model as a whole and increasing customer value by using digital technologies to change existing businesses and processes

#### **Digitization** (Migration to digital on the defense)

### Adopting IT in existing businesses (cost cutting, efficiency improvements)

- Generating resources for growth (people, things, money, data) by adopting digital technologies to improve efficiency without changing existing processes

Infrastructure improvement 1

Developing a management structure for DX promotion and governance

Building a DX promotion structure led by business sections and establishing a Group DX Committee to handle coordination functions

Infrastructure improvement 2

DX human resources

Defining, securing, and training the human resources needed to perform functions and roles in the DX promotion and management structure

Infrastructure improvement 3 **DX** infrastructure development

Realizing a DX infrastructure capable of responding flexibly to changing business and social conditions

Infrastructure improvement 4

More advanced data use

Identifying more advanced data use as a core driver for realizing individual strategies

# II. Digital strategy (ii) Identifying KPIs, accreditation

- We established new strategic targets (key performance indicators, KPIs) within the Hirogin Group to achieve a shared understanding of and to manage goals related to DX promotion within the Group.
- We earned Digital Transformation (DX) Certification from the Ministry of Economy, Trade and Industry.

#### **KPIs**

	Goal	KPI	End of September 2022	End of March 2024	Medium- /long-term goal
	Improving initiatives overall	DX promotion index self-assessment	1.6	2.4	3.5
	Developing promotional structure	DX promotion managers/ DX promotion leaders	_	Appointed in all companies and sections	Qualitative improvements, quantitative growth
	Raising IT literacy groupwide	Earning IT Passport accreditation	_	Earned by 30% of employees	Earned by all employees

#### Targeting the reskilling of all employees

- Some 700 employees have earned IT Passport accreditation; another 2,800 plan to take an exam for IT Passport accreditation during FY2022.
- We expect to achieve this KPI ahead of schedule in FY2022.

**Earning Digital Transformation (DX) Certification** from the Ministry of Economy, Trade and Industry

\* This logo may be used only by businesses certified by the Ministry of Economy, Trade and Industry.

The program for DX Certification by the Ministry of Economy, Trade and Industry of businesses that meet certification standards in various areas, including formulation of management visions related to DX promotion and the development of structures to realize DX strategies. was established in response to fundamental items of the Digital Governance Code based on the Act on Facilitation of Information Processing enacted May 15, 2020.

> Certification date

**October 1, 2022** 

#### (Future initiatives)

- Initiatives required to plan and promote services that strengthen value for local communities and customers while applying DX to improve business efficiency and productivity
- Accelerating practical efforts to implement digital strategies

# II. Digital strategy (iii) Main examples of service introduction and initiatives

Based on the DX Basic Policy, successively introducing new services to increase customer service value in various ways, including use of technology and external alliances

## Services related to digitalization and digitization

Solutions to solve regional

#### Al voice bot

- Al telephone voice response service adopted for credit card cancellation
- This automation of reception operations achieved reforms in business flows while improving usability by eliminating the need to visit Bank branches and associated wait times.

#### **Business portal**

- We offer a business portal site for commercial customers that provides fully digital services including various notifications and online lending.
- We plan to add content to improve customer solutions and better meet their needs.

#### **Web-based provisional applications** for home loans and e-contracts

 We will seek to offer integrated Web-based services for all steps ranging from searching for a home through follow-up services following loan execution.

#### **Bringing video content production** in-house

- Video is an intuitive and effective means of communication regarding existing products and solutions.
- Bringing production in-house has made it possible to cut costs while building video production expertise. We are considering offering it as a service for customers.

#### New features added to the **Hirogin App**

- · We added transfer, credit card loan, and purpose-specific savings features to the app.
- Based on the "Hiroshima Bank in the palm of your hand" concept, we plan to add even more convenient features in the future.

#### **Web-based branch appointment** service

- First adopted for branches in urban locations, this service is steadily expanding to other branches.
- This will strengthen customer service while eliminating wait times for various procedures, including account opening and notifications.

### Infrastructure development initiatives

#### **Bringing Al analysis models in-house**

- · As part of our efforts to advance data utilization, we have begun in-house application of AI analysis models.
- We launched full-fledged Al analysis by adopting a data analysis infrastructure.

#### IT/digital human resource employment category

- We are enhancing points of contact with IT and STEM graduates—which to date have been limited—through internships and courses in partnership with local universities.
- In April 2022, we hired the first year of four new graduates.

## III. More advanced securities strategies

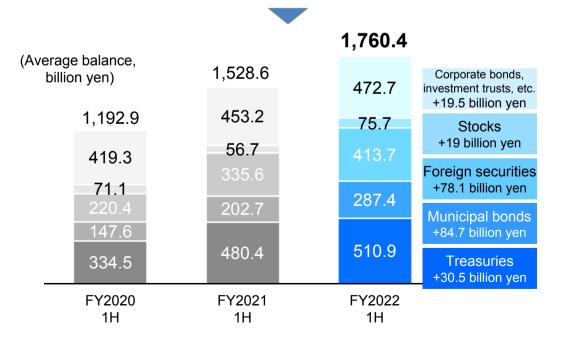

Solutions to solve regional

- To date, we have focused on securing capital gains through short-term trading, in addition to investment centered on interest rate risk, emphasizing liquidity and security.
- From now on, we will strive to rebuild our securities strategies while also advancing investment and asset-management methods based on them, through balance enhancement (to a securities balance of approx. 2-2.5 trillion yen) from a medium- to long-term perspective, to carry securities with stability.

#### Securities investment track record

Investment stance

- Prioritizing tackling credit risk through local lending, we are investing chiefly in interest rate risk with an emphasis on liquidity and security.
- We are also focusing on securing capital gains through short-term trading.

## **Future investment policies**

Basic concept

Building a securities portfolio capable of securing high net interest income with stability and continuity, from a medium- to long-term perspective, within the range of risk toleration

FY2022

#### **Drafting strategies**

- Understanding the investment environment over the medium to long term and designing investment strategies
- · Studying diversification of assets invested in

FY2023 and later

Advancement of asset management and investment methods based on new strategies

(Balance targets)

Securities balance Approx. **2-2.5 trillion yen** 

Improving securities yields

### IV. Group human capital enhancement (i) Diversity and inclusion: Promoting use of diverse human resources

To implement diversity and inclusion initiatives, we are deploying various measures and designing various systems to promote the deployment of human resources with diverse values and skills.

## **Basic concept**

#### **Promoting diversity**

- Hiring diverse human resources
- Active promotion to core posts

#### **Promoting inclusion**

Establishing systems and an organizational culture to take advantage of diversity in human resources

Growing and demonstrating the potential of diverse employees

More attractive organizations

More comfortable and rewarding work

Hiring diverse and highly capable human resources

Retention and active deployment of diverse human resources

### Cresting a career-design program (from April 2022)

In-house internships (Business experience)

#### Number of applicants in FY2022 1H: 50

- Available for younger employees
- Short-term internships offered at the Head Office to support career development in line with employee personal vision

Careerchange support (Reskilling)

#### Number of applicants in FY2022 1H: 4

- Offered for sales administration and management operations staff seeking new
- Training is provided in the requested workplace for a fixed period of time (approx. six months).

### Active hiring and promotion of women, and supporting their success

(Women as percentages of)	As of October 1, 2022	April 1, 2024 target	April 1, 2031 target
Managers	7.0%	Approx. 7%	Approx. 10%
Management class*	16.0%	Approx. 20%	Approx. 25%
Management class candidates	36.3%	Approx. 35%	Approx. 40%
New hires	45%	Approx. 50%	
Total employees	39.0%	_	Approx. 45%

<sup>\*</sup> Managers and supervisors under the Labor Standards Act and those with equivalent authority (e.g., managerial personnel)

### IV. Group human capital enhancement (i) Diversity and inclusion: Employment of people with disabilities

In light of our social mission to support independent living for those with disabilities, we actively hire people with disabilities. By improving jobs and workplace environments, we are making progress on building workplaces in which they can experience more vibrant lives and rewarding work.

Accredited as a subsidiary subject to special provisions under the Act to Facilitate the **Employment of Persons with Disabilities (November 2022)** 

**Subsidiary** subject to special provisions\*1

- Hirogin Business Service K.K. has been accredited as a subsidiary subject to special provisions.
- The new Heartful Business Division (with 21 employees) was established (October 1, 2022) to support growth and make work more rewarding in line with the aims and paces of individuals, regardless of disability status.
- We have adopted employment courses and HR systems to enable personnel to achieve improvements in accordance with their degree of independence and mastery of skills.

Data entry and other office support

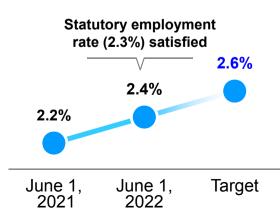

**Publications printing business** 

As the first regional banking group in the Chugoku region to earn accreditation for application of special provisions for affiliates\*2 at five Group companies, we are actively promoting the employment of those with disabilities across the Group.

- Under the system of subsidiaries subject to special provisions regarding the system of percentages of employees with disabilities, when a business establishes a subsidiary that applies special consideration for the disabled to promote and stabilize their employment, employees of the subsidiary are considered to be employed by the parent company and can be included for the purpose of calculations of the effective percentage of employees with disabilities.
- When certain requirements are met, a business with a subsidiary subject to special provisions can calculate its effective percentage of employees with disabilities employed by the parent business by considering workers employed across the entire group, including affiliates other than the subsidiary subject to special provisions. (This accreditation was earned for the Hiroshima Bank, Hirogin Securities, Hirogin Lease, Hirogin Human Resources, and Hirogin IT Solutions.)

### The Group's percentage of employees with disabilities

**Targeting further** promotion of employment, targeting a level of 2.6%

#### IV. Group human capital enhancement (ii) Organizational culture development and HR training to take on challenges

We are focusing on fostering a culture of taking on new challenges boldly, and one that supports individual challenges, through means including holding business contests.

We are also enhancing HR development by opening a new research facility to contribute to community vitality.

## **Holding business contests (since FY2021)**

- Holding business contests to solicit business ideas for new businesses and business efficiency improvements from Group employees
- The idea chosen as most promising by the judges (including outside experts) involves a study of commercialization, which has been underway. The originator of the idea has been named project leader.

	FY2021	FY2022
Applications	60	43
Ideas selected for final screening	5	5
Ideas selected for study of commercialization	1	(TBD)

## "Culture of Praise" awards (since FY2020)

Launched to foster a culture of tackling challenges and establish an organization whose members take an interest in and complement one another

<Past awards>

- Communicating information on the appeal of local sites and historical locations in the business territory (through social media, lobby displays, etc.)
- Streamlining special administration based on sustained joint efforts with local governments

Total number of awards: 23

## **Establishing the Future Creation Task** Force (since FY2022)

- A Future Creation Task Force made up solely of younger employees has been formed to develop future visions for the community and the Group.
- Sixteen members were chosen from among 77 applicants.
- Plans call for the Task Force to identify a future vision for the Group a decade into the future and to present on it in March 2023.

### **Hirogin Career Cocreation Center to be** established (planned for March 2024)

- This is intended to enhance HR development through hybrid training, seminars, and other activities that leverage the strengths of both online and offline platforms (based on the adoption of equipment to strengthen online training and multifunctional training options).
- The Center will serve as a facility that contributes to community vitality as an HR development center.

Toward sustained growth

Solutions to solve regional Support for customers Management foundations

Capital policy

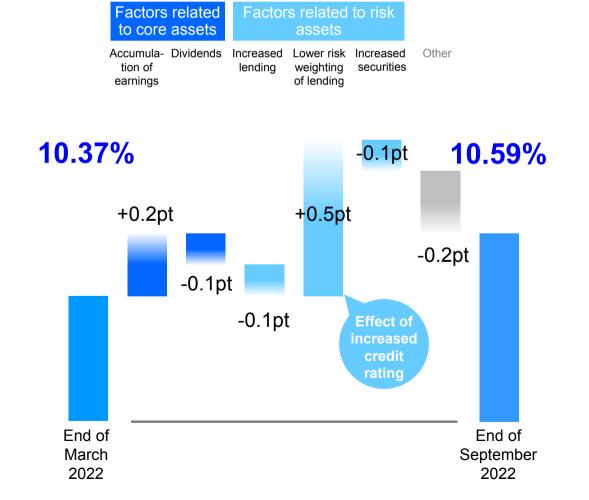

# I. Status of capital adequacy ratio and cross-shareholdings

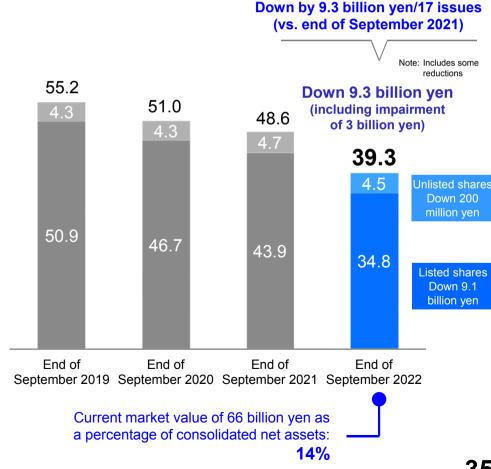

- Despite growth in lending and securities balances, the consolidated capital adequacy ratio of the Holding Company in the first half of FY2022 was up 0.22 pts. from the end of March 2022 to 10.59%. This was due mainly to the effects of a lower risk weighting, as credit ratings on loans improved.
- Cross-shareholdings declined by 9.3 billion yen from the end of September 2021 thanks to continuing progress on discussions with the issuers.

Major factors contributing to changes in the Holding Company's consolidated capital adequacy ratio

Reduction in cross-shareholdings (book-value balance)

(Billion yen)

Toward sustained growth

Solutions to solve regional
Support for customers

Management foundations

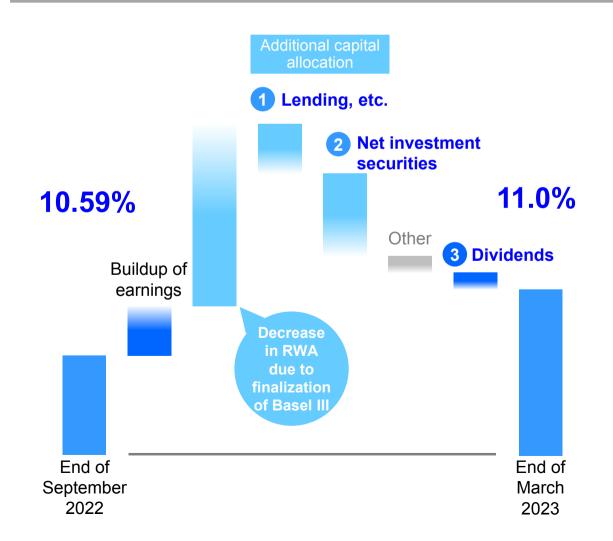

Capital policy

#### II. Thinking on the capital adequacy ratio and capital allocation

Reflecting various factors, including earnings accumulation and cutting back on holdings of risk assets due to finalization of Basel III, we will enhance capital allocation to net investment securities to restructure the investment portfolio while taking on local credit risk.

▶ We will seek to achieve a medium- to long-term consolidated capital adequacy ratio for the Holding Company of 11% (10% for the Bank alone). This reflects various factors, including the fact that the negative effect on the capital adequacy ratio of the worst-case scenario is about 1 pt.

#### Thinking on the capital adequacy ratio and capital allocation

### 1 Lending, etc.

- Approx. 95 billion yen in additional capital allocated to business loans and personal loans to take on credit risk centered on the local region
- Also allocating an additional approx. 20 billion yen to the equity business, a revenue driver

#### Net investment securities

 Allocating capital to rebuild a securities portfolio capable of securing stable and continuous high net interest income based on a medium- to long-term perspective

#### Dividends

\* See the following page for more information.

### Target medium- to long-term level of the capital adequacy ratio

- The negative effect on the capital adequacy ratio of the worst-case scenario over the past 15 years has been about 1 pt.
- We will seek to achieve levels of 11% to ensure a minimum capital adequacy ratio of 10%, even in the worst-case scenario.

Toward sustained growth

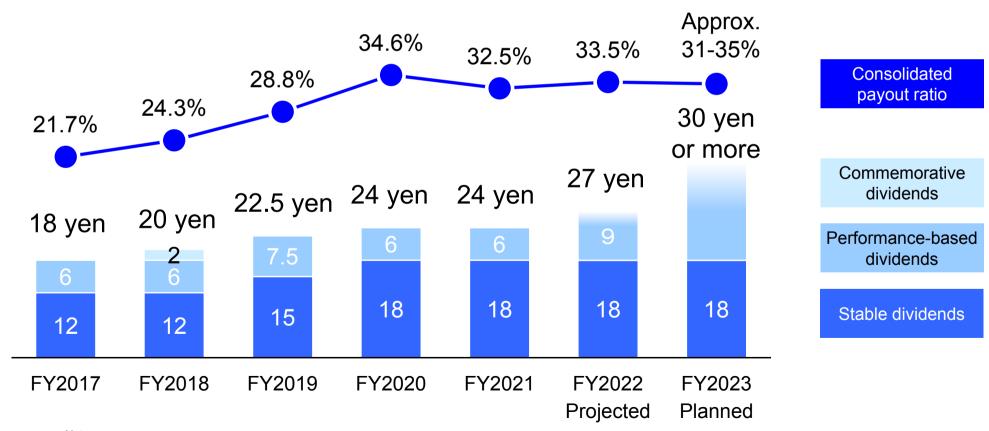

Solutions to solve regional Support for customers Management foundations

Capital policy

#### III. Shareholder returns

- In FY2022, we plan to maintain dividends of 27 yen per share, even if net income attributable to owners of the parent falls to 24 billion yen or less (unlimited by impairment on shares).
- In addition to increasing dividends by recording steady profits, we will consider revising returns to shareholders based on our payout ratio, assuming a consolidated capital adequacy ratio of 11% or higher over the medium to long term, while enhancing efforts to broaden investments beyond lending and net investment securities to include equities.

#### Trends in amount of dividends per share (yen) and consolidated payout ratio

#### Notes:

- 1. Dividends per share in FY2017 have been adjusted to reflect the reverse stock split (1:2 shares) implemented on October 1, 2017.
- 2. Hirogin Holdings was established on October 1, 2020. The figures shown for FY2020 represent the totals paid by Hiroshima Bank, including interim dividends of 12 yen per share (3,748 million yen in total).

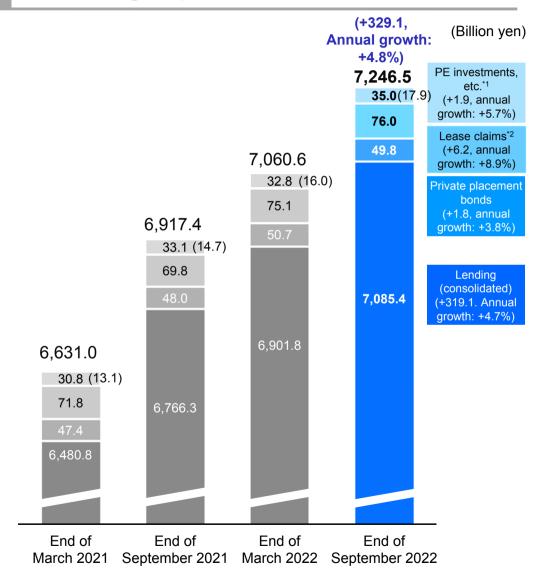

Summary of Business performance

Total amount of risk-weighted assets, etc. (4)	3,790.0	3,833.7	3,854.4	4,007.6	3,986.2	-21.4	131.8
Capital adequacy ratio ③ / ④	9.96%	9.88%	10.02%	9.71%	10.01%	0.30%	-0.01%

### 13. Risk Management

[State of comprehensive risk management]

#### Operations conducted well within risk quantity limits

#### [Standards for measuring risk quantity]

		Measuring method	Confiden ce level	Holding period	
Cre	dit risk			One year	
	Interest rate risk			-	
	Deposits, loans, etc.			One year	
뽔	Securities			Three months	
Market risk	Net investment in securities, etc. (excluding bonds)	VaR (Note)	99.9%	Three months	
	Policy investment securities, etc. (excluding bonds)			Three months	
	Cross-shareholdings			Six months	
Оре	erational risk		-		

Note: Method of calculating the maximum loss through statistical analysis of historical data

### [State of interest rate risk in the banking book (IRRBB) (End of September 2022)]

■ Results of materiality tests

(JPY Bn)

①ΔEVE (*2)	33.9
②Amount of owned equity (consolidated)	404.8
Results of materiality tests (①÷②) (*3)	8.4%

<sup>\*2:</sup> The IRRBB shows declines in market value attributable to interest rate shocks.

<sup>\*3:</sup> The Financial Services Agency's Guidelines for Supervision call for ΔEVE to be no more than 20% of equity.
